OBJECTIVE

To be part of the development team and to contribute to with my experience in Android developments, I.T. business and team work. I feel extremely motivated to continue improving my career in Android Applications development.

MY PROJECTS

After almost two years working at Scondoo as main Android Developer and more than one year at SMF, I have been involved in many projects that are now in the Android Play Store. The duration of the developments I have worked on varied from 1 month to more than a year, and were undertaken both as solo projects and in teams. I also have formative experience in Windows Phone, iOS and JavaScript. Some of the Android projects that can be found in the store include: scondoo, HotUkDeals, reBuy, LernCoachies and DHL.

EXPERIENCE

Android Developer
scondoo
Berlin. August. 2013 - Present

At scondoo I overtook with agility and speed the code developed by 2 different agencies. This code was in several cases unstructured. Thanks to my experience I improved it with ease, not only in performance but also in design.

Technical Skills: Android, Java, JSON, Git, JavaScript

Android Developer
HotUKDeals
Berlin. Nov. 2014 – Feb.2015

I worked remotedly with the HotUKDeals team in Canada building the new generic app, where I rapidly aquire the knowledge of the software architecture and the team methodologies to help them increase their development process.

Technical Skills: Android, Java, Clean Architecture

Android Developer
Smart Mobile Factory
Berlin. May. 2012 – July.2013

My ability to quickly adapt to new concepts has been useful to develop and improve various Android Applications. Obstacles I must regularly overcome include definition changes, new features, improvements and tight deadlines.

Technical Skills: Android, Java, JSON, XML,Windows Phone, Parse.

Web App & ETL Developer
Innova-TSN
Madrid. Jan. 2011 - Feb. 2012

I was quickly integrated in different projects, while experiencing new technical tools, supplying ideas and helping to find solutions. Additionally I assumed managerial and technical responsibilities, and regularly shared my expertise in Oracle with my colleagues.

Technical Skills: Java, JSP, Html, Css, Batch, C#, Oracle, Eclipse.

ETL Developer
AlamoConsulting
Madrid. Jul. 2009 - Dec. 2010

I was part of a small team that developed a large scale corporate DataWarehouse, where versatility was a constant challenge.

Technical Skills: Oracle, SAS, SAS DIS
